

Superyacht PW & Powerboat Training

In 2007 we saw the introduction of a new specialist RYA course dedicated to addressing the needs of Superyachts with Personal Watercraft on board.

The *Introduction to Personal Watercraft Safety Course* is a new RYA course aimed at guests on board a Superyacht whether under charter or with the owner on board. Discussions between the PYA & RYA have led to a scheme that allows a Superyacht to become recognised as a RYA Training Centre and then with a RYA PW Instructor on board they can run this new course allowing issue of a short term and vessel specific licence to charter guests, regular guests and crew.

Powerboat Training UK are specialists in PWC & Powerboat Instructor training and are authors of the *RYA Powerboat Handbook*.

We provide PW & Powerboat Instructor Training Courses, indeed two of the Trainers that work at the school (one of which was Paul Glatzel) ran the first of the Instructor Courses aimed at this new market for the RYA in Antibes in April 2007

We also assist yachts to become RYA Training Centres creating all necessary documentation and procedures – most notably we undertook this for the first yacht to achieve such recognition – MY Kogo.

To discuss your yacht's needs please call or email us.

Features

- Undertake 3 day RYA PWC Instructors Course or combined 4 day RYA Powerboat Instructors Course (3 days) plus RYA PWC Instructors Conversion Course (1 day).
